

IMPROVE PROCESSES
OPEN COMMUNICATIONS
MANAGE RESOURCES
CONTROL COSTS

The **LEMS Dashboard** provides a centralized view of Work Orders per customer or project, Purchase Orders, Customer and Vendor Invoices, and Labor & Materials Overview. Get quick insight into project status and benchmark against key performance indicators.

Using a mobile electronic work order management system moves you to a completely paperless solution, shortening administrative tasks and streamlining operations. You'll know where all your people are, and you'll know exactly what they are doing.

Accelerate Project Turnaround

Streamline your processes and push requests into action. Put the right employee in the right place at the right time. Every time.

Improved Communication / Lower Risk

Allow customers to review Work Orders prior to execution. Never lose or misplace a Work Order or Invoice. Connect in real time with personnel and contractors, regardless of location.

Mobile Solution for Field Personnel

Using the free LEM iOS Mobile app allows Field Services personnel to enter project Labor, Equipment and Materials information on location. Digital signatures provide accountability of data.

Real Time Tracking and Traceability

Keep track of your Customers' requirements and execution of work scope. Track Field Personnel locations and activities on a daily basis.

Simplify Payroll

When an employee fills out a LEM with hours worked, the system transfers and auto-populates these hours into the Timesheet Manager. Easily transfer these timesheets to any payroll system.

Complete Paperless Solution

Move all Work Orders, Purchase Orders and Customer Invoices to a secure virtual cloud. Sign and send documents digitally.

LEMS

**LABOR, EQUIPMENT,
AND MATERIALS**

Work Order Management, Purchase Order Management, LEM Creation, Timesheet Fulfillment, Customer Invoicing, and comprehensive Reporting.

Everything you need to execute, control and manage Fieldwork, Timesheets and Invoicing for your company.

www.cedgeware.com

Can this software really help my company save money?

Yes, it can. The CEEdgeWare LEMS tool streamlines your operational processes, allowing you to create dynamic work and purchase orders based on customer and vendor needs. Field services personnel use the mobile application to document daily use of labor, equipment and materials. Timesheets automatically update and customer invoices attach associated LEMs, POs and WOs for a complete invoicing package upon project completion.

The cloud-based (and mobile) LEMS manages the lifecycle of project documentation, customer & vendor requests, and employee timesheets.

Work Orders

- Track all details pertaining to Services.
- Attach POs, LEMs, and Invoices.
- Control scope change.
- Real Time review of WO prior to execution.
- Automated emails keep customers informed.
- Generate detailed reports on status, costs and more.

Purchase Orders

- Standardize process to manage contract work and costing.
- Auto-calculate tax liabilities and vendor invoice markups.
- Track contractor certifications, licensing and work assignments.
- Manage vendor invoicing, payments and balances.
- Reporting and dashboard timelines.

LEMs

- Regulate employee/contractor, equipment, and materials bill rates.
- Standardize Man-Hour utilization, allocation, and cost recovery.
- Track employee work by Customer and Work Order daily.
- Manage Equipment usage and allocations.
- Gain valuable feedback from client ratings and comments.

LEMs Mobile

- iOS Application allows for paperless LEM execution.
- Digital signatures from contractors provide verification and accountability.
- LEM hours, usages and allocations are updated and verified in real time.
- Mobile capability allows for faster client signoff for invoicing.

Customer Invoices

- Send invoices weekly, monthly or upon work completion.
- Expedite turnaround from preparation through submission.
- Auto-compile signed LEMs, invoices and receipts.
- Automated emails inform customers.
- Export invoice data to 3rd party accounting systems.

Timesheets

- Improve labor tracking accuracy.
- Allow employees and contractors to add hours onsite and in real time.
- Reduce conflicts over MH tracking and payroll amounts.
- Remote approval of hours performed.
- Customized reporting on employee/vendor MH allocation.

Setup and Preparation

24 Up and running within 24 hours!

We take all the data you provide us and populate the system with your company, customer, vendor and employee data. Then, we configure all your roles and login credentials, giving you immediate access to your LEMS account.

Training and Execution

Start using your account right away!

We provide screen-sharing online meetings to get you up-to-speed and using the system immediately. Web-based tutorials provide continuous "just-in-time" training for your staff and contractors. Create your first Work Order and start using the LEMs Mobile Application out in the field tomorrow.

Ongoing Support

Our team is dedicated to your success.

Have questions or need help? We provide personalized support for you, your employees and your vendors, online or over the phone. And, because your LEMS account is hosted in an encrypted, secure cloud, you can be confident your valuable data is safe and accessible.
